

## Angel from Afar

Hold tight to memories  
What you were could never keep my soul  
From growing old

I take a sullen look at what you took  
As I walk on through that door of hope

Just to find unassuming eyes, liberating smile  
You were there with innocence  
Offering my best defense

There you are, angel from afar  
Here to save this dying fate  
Avow a brand-new start...

Every breath I start to breathe  
Is given up so you won't see that I  
Am lost in life

I'm running circles through, what you knew  
To be the only truth that I hide

Just to find, unassuming eyes, liberating smile  
You were there with innocence  
Offering my best defense

There you are, angel from afar  
Here to save this dying fate,  
Avow a brand-new start...
