

If Not Alone

We stop and take a look
At everything misunderstood
Knowing now what knowing is all about

Long hair and torn up jeans
Breaking hearts through guitar strings
Singing songs 'cause we were busting out

Someday we will shine we'd say
Be the brightest star in the sky
Hand in hand we'd make it through the fray
We were one

We stop and take a look
The more we gave the less we took
Never giving up on what we believed

Today had seemed so far away
As we dream of yesterday
Moments we shared live in this dream

Someday we will shine we'd say
Be the brightest star in the sky
Hand in hand we'd make it through the fray
We were one

Where have you gone my friend
When will I see you again
We learned to fly, and we would never land
If not alone... I'm home
