

Taylor Avenue

Shadows from the old street light, dancing on a lonesome night
No one left to sing your song, nobody is left here at all
Memories remain the same, whenever we hear your name

Football games out in the rain
Nothing left for us to do
Fallen tears that hold the pain
Every road we chose to pave
They all lead back to you... Taylor Avenue

This old house has broken down, the street is tired and its time's run out
Yet we always praise your name, holding true the love you made
Memories live in your name, no matter how far we stray

Football games out in the rain
Nothing left for us to do
Fallen tears that hold the pain
Every road we chose to pave
They all lead back to you... Taylor Avenue

Remember the nights we shared, you kept us safe while together we'd dare
Let go of the pain we'd bare, together forever we'd swear

Football games out in the rain
Nothing left for us to do
Fallen tears that hold the pain
Every road we chose to pave
They all lead back to you... Taylor Avenue
