

Building Demolition and Site Cleanup/Grading

Case Study	
Date	Spring 2021
Location	Residential Site, Southborough, MA
Facility	150 year old 2 Family House
Project Scope	Demolition of dwelling, removal of site debris, rough grading
Time Frame	2.5 days, start to finish, on time, under budget

Conigliaro Block was tasked with demolishing a two-family house standing in the way of a new development. The structure was demolished, the concrete and stone foundation was crushed, the site was cleaned of debris and backfilled and then rough graded. The project was completed in just two and half days to meet the developer's requirements.
