

# BC Agricultural Expo

September 20-23, 2024  
North Thompson Agriplex  
Barriere, BC

## BC Ag Expo Small Engines Division Classes 2024

### Unit Work

Unit 1 - Two Stroke Engine  
Unit 2 - Four Stroke Engine

These classes will be held with the member and the judge at the members display and the member will present their record book, display, and project to the judge and answer any questions the judge may have about the process of completing the project.

Junior, Intermediate, and Senior classes will be run with as many members as needed.

Ribbons - 1st - 3rd place to be awarded as determined by the judge.

### Showmanship

Classes to be held in a 'ring' or designated area OUTSIDE of the barn and in a fairly private area as the projects are required to be started. One member is in the ring at a time with the judge and each member has 20 minutes to complete their showmanship class.

### 4-H Judging Classes

Members will be required to judge two project classes. Both classes will have written cards. These classes could be held anywhere, and the location will be communicated through the Small Engine Representative.

### Auction

Members have the option to sell their projects through the auction but must communicate to the Secretary ([secretary@bcagexpo.ca](mailto:secretary@bcagexpo.ca)) if they wish to sell through the auction.

### Prizes and Sponsors

Prizes will be determined and purchased by the Small Engine Representative and the Prize and Ribbon Representative on the Committee.
