## LRCF JUNIOR DIVISION

*This year the Junior Precision Rifle Team took it to a new level.*

I had the amazing opportunity to take the Lincoln Rifle Club's Junior Precision Team to Camp Perry where they competed in the 3 Position Smallbore National Championships and the Air Rifle 60 Shot Standing National Championships. We had 10

kids and 12 parents on this trip and every single person contributed in making this an amazing experience. Like last year we stayed in the cottages

right on Camp Perry where we had a chance to swim in Lake Erie and watch the amazing sun rises. It's definitely a tough trip and it tends to test the kids resolve. We all meet at SMF

at 0dark30, travel  $\frac{3}{4}$  the way across the country to compete in the eastern time zone, where we are expected to be on the line at 0730 (that's 0430 at home). But our kids handled it like champs. They shot 4 days in a row, the first day was practice (formally

known as PET or Pre Event Training), then on days 2 and 3, they shot two matches each day, one at 0730 and the second at 1230 and on day 4 they

shot in a team event. Then to add even more pressure, this match is an "open", meaning that anyone in the country can show up and shoot...and they did. For each discipline there

# KINETIC ENERGY NEWSLETTER SEP/OCT 2025 EDITION

were 4 relays of about 75 shooters and the nation's best were there to compete, including two Olympic Medalists. Which is pretty cool for our kids to say that they have competed with Olympians. That said, they worked hard to put up some amazing scores. Five of our ten girls shot personal bests and three others held on to amazing scores even though they had never shot in a national match before. Notably, was Eva Carbajal, that was so sick the first morning she didn't even shoot, then she got on the line late in the day to shoot a personal

best of 606.3, only to beat that score the next day with a 613.5. After the matches, and following tradition, we took the kids to Cedar Point where they rode the largest and fastest roller coasters in the world, and I logged about 20k steps, ate the most amazing funnel cake and stayed until they closed so we could collect Ava's cell phone that was lost on a ride.

I am so grateful for our team, the kids are absolutely wonderful and truly want to excel in this amazing sport; I really am blessed to a part of this organization. Lastly, I could not have done this without the help of the parents, especially, Robert Lusk, Michael and Lisa Diaz (mostly Lisa ☺), Dan Scholz, Matt Costello, Sarah Carbajal and Phil Shen, you all are amazing and I am so grateful for everything you do.

-Ryan Watts

*Junior Division Head Coach*

## LRC TRAP

That big brown berm continues to challenge us at the LRC Weekend Trap matches. No matter how much we practice, we just cannot seem to record perfect “25” scores. We do not know if it is because we are getting old or because Mother Nature always has a surprise for us on our match days. In any case, we keep showing up, putting our toes to the line, and taking our best shots at those pesky targets. Speaking of pesky targets, we want to thank the Golden State Shooting Center for continuing our partnership regarding the acquisition of targets. They generously provide them to us “at cost,” making it possible for us to keep our relay prices down.

Members of our trap group have lent a hand to GSSC over the past few months, providing scorekeepers, house loaders, and anything else they may need to put on the many events they sponsor. If you ever want to see trap at its best, stop by one of these events and see the best perform. We also have some very good shooters that compete and do very well. It is always fun to see someone you know excel at a sport that you also enjoy. As always, everyone is welcome to our LRC Weekend matches as well.

Things are going to be different at the LRC Trap Matches for the upcoming 2026 shooting year. We will be reducing the number of matches scheduled. As the Club moves forward, the space occupied by the trap house may be better served in LRC’s commitment to providing training to the public regarding CCW’s and other training opportunities. Holding a CCW in California is difficult and we, trap shooters, want to make every effort to make sure the public has everything our Club can offer for their success. We also want to make sure that plenty of opportunities and space available to the public to become acquainted

-with the fun and safety associated with the shooting sports.

Changes made for the 2026 shooting season will be the elimination of all weekday matches. Currently, we hold matches on the 2<sup>nd</sup> and 4<sup>th</sup> Thursdays, however, for the 2026 shooting year, these will be eliminated. The good news is we will continue to hold most of our matches on our previously scheduled weekend days. Matches will continue to be held on the 1<sup>st</sup>/2<sup>nd</sup> Sunday & the 3<sup>rd</sup> Saturday of each month, beginning at 8:00 or 9:00 depending on the daylight savings time. Also, the good news is the cost for each relay will remain at \$5!! We offer the most affordable relays in the Gold Country area. We will continue to develop competitions within our matches that both challenge and excite our shooters; all with prizes. Trap shooters at all levels are welcome. We have had the opportunity to introduce several new shooters to the sport of trap, and we always have coaches on hand to assist.

We look forward to the 2026 shooting year and working with our on-site Range Safety Officers to establish a comfortable shooting flow for all to enjoy. If you have any questions regarding the LRC Trap Matches, please feel free to contact me directly at [moorem2@sbcglobal.net](mailto:moorem2@sbcglobal.net). I look forward to welcoming you to our matches.

-Margaret Moore  
*LRCF Trap Director*

## ***CONVENTIONAL PISTOL***

### **THE CONVENTIONAL PISTOL SEASON WILL BEGIN THIS NOVEMBER.**

We will be shooting the second Wednesday in November and December then the second, fourth and fifth Wednesday each month. Doors will open at 1:30, relays at 2:30, 4:00, 5:30 and 7:00. There is a \$10 registration fee, then \$5 cost per match.

Conventional Pistol is a 65 round, seven course of fire match with two categories: standard-one hand, and "F" class- two hands. We average thirty shooters per year with male/female, farther/daughter, father/son, husband/wife, younger and older shooters. The match is open to club members and their spouse if both are present.

### **Free Conventional Pistol Class**

Do you have a .22lr pistol you enjoy shooting? Come to the CP class and learn how easy and fun this match is. The class will be October 29th, 7:00 PM at the indoor range.

Pre-registration is required as there are limited shooting lanes. Shooters will need a .22lr pistol, 70 rounds of ammunition and eye/ear protection.

To register email [scottyolin@msn.com](mailto:scottyolin@msn.com) with your name, club number and phone number.

## CIVILIAN MARKSMANSHIP PROGRAM

First off, I wanted to thank Sam Schrader and Steve Micheli for officiating the CMP match on June 21st while I was visiting my little granddaughter. An award was earned at that match by Jaime Bagtas in the unlimited modern military category, a bronze pin using a scoped AR platform. Thanks Sam and Steve for "holding the fort" and a safe fun match.

Our July match featured a new shooter, James Carson, who really did his research about the CMP and the John C. Garand course "A" match in general. He also appeared to be a "natural" using an M-1 Carbine. He actually shot well with what the Government intended to be a "replacement in certain situations for the M1911 .45 cal. Semi-Auto pistol. Considering this, his scores were very good at 100 yards in prone position. In a full carbine match, it consists of 40 shots, and adds a sitting/kneeling position to the Garand course "A" match which is 30 shots for record.

In the second relay, James used a type 99 Japanese Arisaka, 7.7 mm. He shot acceptable scores in prone slow fire and used the stripper clips very well in the prone rap-

id fire stage. The offhand/standing position needs some work, but it was so interesting to see something out of the ordinary in the vintage foreign military category. James said his grandfather took part in the invasion of Okinawa (April through June 1945), and brought the Arisaka home as a war souvenir. There are a few scratches on the stock, but the rifle functions very smoothly.

In the July match, Jaime Bagtas again was entered in the unlimited modern military category. He was using an scoped AR. His prone slow score was a 100-3X / 100-10X possible. Prone rapid, 99-3X / 100-10X possible and an 89-1X / 100-10X possible. This earned Jaime a silver award pin. A few more points needed in offhand/standing to get the gold.

September and October 2025 matches will be held on the THIRD Saturday ( Sept. 20th, and October 18th) entries taken at 0730h, 7:30AM and the fee to shoot the match is \$15.00. Come on out and have fun

-Chuck Riglick

*CMP Match Director*

## MULTI GUN DIVISION

*Congratulations to the July and August Match winners:*

### July

### August

MGD Open: 1st- Jason Nasjleti, 2nd- Antony Duong

MGD Open: 1st- Gabe Sherwood, 2nd- Patrick Daniels

## RANGE MAINTENANCE DAYS

On the first Saturday of every month, the Dillman Range closes for Range Maintenance Day. This is an excellent opportunity to earn hours towards your work credit requirement. Range Maintenance Day will begin at 8:00am at the Dillman range. We are always looking for volunteers to help complete projects out on the range. Different months might have different projects or tools needed, so keep an eye out for special announcements.

In lieu of attending our workdays, there are other opportunities to earn work credit towards your membership. If you have spare cardboard lying around, you can donate it to the Lincoln Rifle Club. Make sure the pieces are at least **14"x40" and have no horizontal seams**. You can just bring it by the Dillman Range and submit a picture of your cardboard to the office email ([admin@lincolnrifleclub.com](mailto:admin@lincolnrifleclub.com)) and we will add work credit to your account.

## SAFETY CLASS

The next LRC Safety Class/Member Orientation sessions will take place on **September 13th & October 11th** at the Headquarters Office located at 620 3rd Street, Suite 200 in Lincoln. Please call the office at (916) 434-0308 to enroll, and remember to bring your green Provisional Attendance sheet with you.

This class is one step to completing your Provisional Membership requirements and becoming a full LRC Member.

*We hope to see you there!*
