

## Grid calling in

When you get the stones, you need for the type of grid you are setting...you will print the grid and sage the grid and any stones you are using. Clear all the items with the smoke and write down main focus of grid in the center circle.

In the middle place a picture or write main intention in center

For example, the one for protection write down love, light and protection from hate/anger then after doing the same with the stones. Don't forget to write the three top things you're asking for in each grid

- 1- Your picture in the center or name with birthdate
- 2- Protection
- 3- block their energy from us
- 4- let their hate and anger be directed else were

Another example

- 1- New job in center
- 2- Income for job
- 3- Date you want a job offer or interview
- 4- Quality of work environment, flexible, part time, ect...

Things like that

Just place the stones all over the grid in the circles

Money, new job, new home work with citrine, sea salt

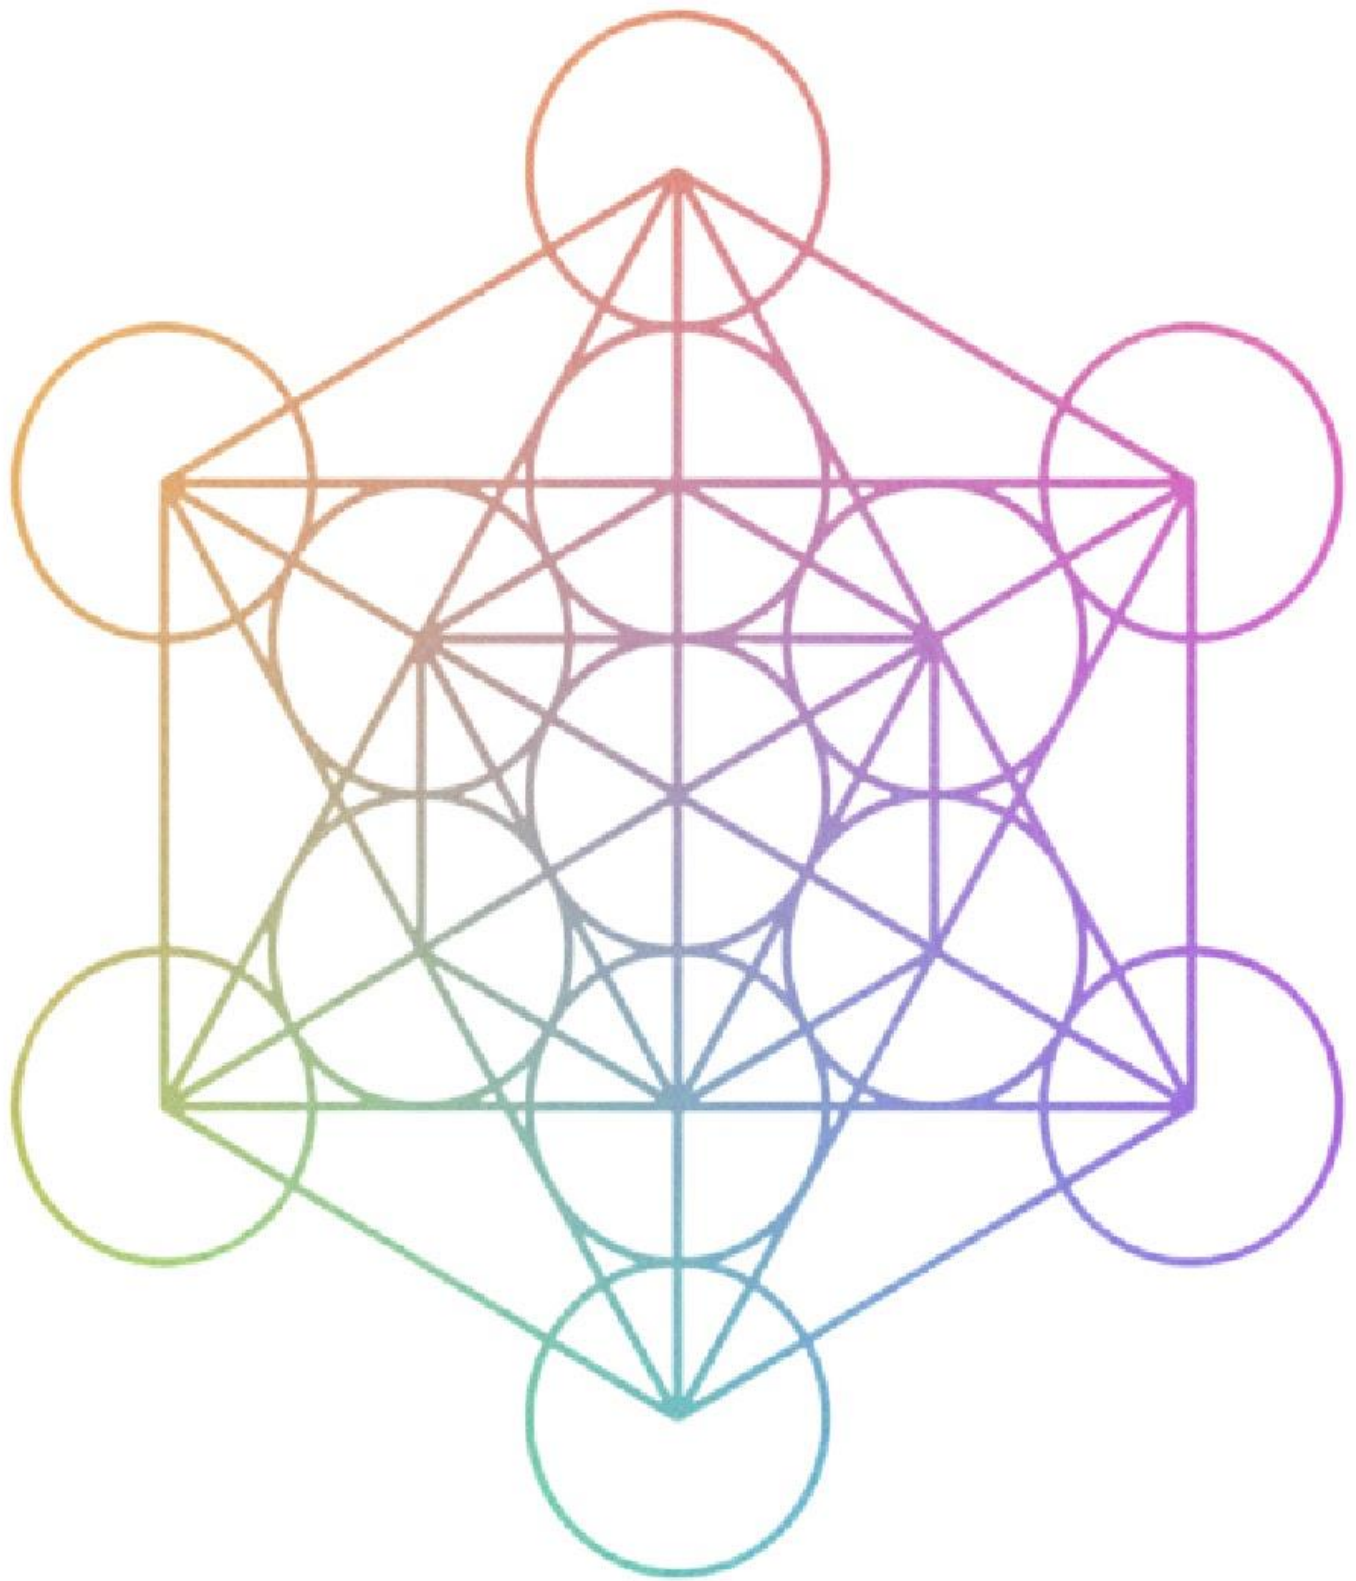

Health, relationships/love-rose quartz, green aventurine, sea salt

Protection, boundary setting, cord cutting-black tourmaline, smokey quartz, black salt

Then place black salt in a circle around the sacred geometry with the Visualization of creating an energy of protection around you. Then place stones in the other circles on grid and call in the intention you are asking for.

Then everyday go to grid and see it protecting and manifesting the energy in your space and give gratitude to the salt, stones and love of your guides and spirits

Hold for at least 30 days

Metatron's cube

Seed of life

Flower of life
