

Accessing past lives can remove karmic blocks and allow healing of emotional issues in the present lifetime.

Our True Nature is love. But we have forgotten who we really are! Lets explore these possible blocks to our true Spiritual Self through exploring our past life's.

This process will incorporate relaxation and meditation with guided imagery techniques to gently lead you on your own unique journey into your subconscious and work with Archangel Raziel and your higher self to explore and discover.

Have you ever felt like you've been somewhere before when you haven't?

Do you have repeating behaviors or patterns that no matter what you do they still emerge in your life?

Do you have unique/intense areas of interest or talents?

*Do you have phobias with no known origin?
Lets explore where the roots of these have began with journeying to your PL*

Sunday July 28th
