

Must Read – By Blessy Kirubakaran – Reedsy Discovery Reviewer

*A wild ride of sibling drama, biker gang chaos, and jaw-dropping twists: "One in Vermilion May Live" will keep you hooked till the end!*

"Wow. Just... wow. Okay, I have to say it: "ONE IN VERMILION MAY LIVE" or also termed as "A Twista' Sista' Kinda' Book" is one heck of a twisted ride you didn't see coming. This book doesn't just tell a story; it throws you headfirst into sibling drama, high school chaos, and a biker gang showdown that'll leave your jaw on the floor. Trust me, you'll want to buckle up. Here's the setup: Meet Davina and Mallory-identical twins with nothing in common except their DNA. Davina's all brains, math competitions, and animal rights meetings no one shows up for, while Mallory's a Broadway-dreaming dancer who has no time for equations but all the time for glittery tights. Life is already complicated enough with parents trying to push Mallory into STEM and Davina trying to outshine her sister for once. And then, BAM! A gang of leather clad bikers "THE REBEL DEMONS" crashes the school bus. 'Guns Blazing LIKE IT'S THE Literal Flames'. Oh, and they might be chasing after a missing drug dealer who just so happens to be a classmate. A CASUAL ONE. Davina, now the accidental captain of her school's Nerd Bowl team, is juggling that chaos while Mallory fights to keep her dreams alive despite her parent's crushing expectations. Oh, and did I mention the lingering threat of a juvie-bound bad boy named Snake Riley, who's rocking a snake tattoo that screams, "I'm bad news"? Yeah! The chemistry between these two sisters is pure gold-think sarcasm, rivalry, and 'under the surface' love that only siblings can deliver. But the real tension? Watching them navigate their wildly different lives while somehow dealing with the same biker-gang-shaped threat. And let's talk about the twists. One minute you're laughing at Davina's malfunctioning hologram phone, like seriously, MetaApplesoft needs to get their act together 🙄, and the next, you're gripping the book because what just happened with that pool scene?! Oh, and Krystall Nykkolls? Yeah, let's just say you won't look at her the same way again. The pacing is chef's kiss, fast enough to keep you flipping pages but slow enough to savour the witty banter, sibling drama, and oh so juicy secrets. And the ending? Let's just say you'll be screaming, "Wait, what?!" because nothing-absolutely nothing can prepare you for that last scene. If you're into sharp humour, heart-pounding action, and complicated family dynamics with a side of unexpected danger, "ONE IN VERMILION MAY LIVE" is a must-read. Trust me, you'll be hooked from the first page and counting down the days until the next installment. Now, excuse me while I practice my own dramatic pirouette out of this wild book hangover waiting impatiently for the next part."
