

DOG ON MOON

woof paper (white paper)

ABSTRACT

Dog on Moon (MOON) is a community-driven cryptocurrency built on the Flare Networks blockchain. With a vision to foster the strongest community in the crypto space, Dog on Moon aims to transcend being merely a meme coin and become a movement towards reaching new heights. This white paper outlines the tokenomics, vision, and key features of Dog on Moon.

Introduction

Dog on Moon is a cryptocurrency project inspired by the iconic dog Laika, the first dog to enter space on November 3, 1957. Dog on moon embodies the spirit of exploration, community, and ambition - the idea of reaching exponential heights within the flare ecosystem and beyond.

Our vision for Dog on Moon is to create a vibrant and inclusive community that not only supports the growth of our cryptocurrency but also contributes to meaningful initiatives and causes. We aim to build a movement where every member feels empowered to participate and contribute to our shared success.

Technology and Blockchain

Flare Networks is a cutting-edge blockchain platform designed to enable the creation of smart contracts and decentralized applications. Its unique integration of the Ethereum Virtual Machine (EVM) and Federated Byzantine Agreement (FBA) consensus protocol provides high throughput, low fees, and interoperability with other blockchains.

Flare Networks offers a unique opportunity for Dog on Moon to thrive as a deflationary meme coin. The integration of Flare allows us to leverage its advanced features and scalability to create a robust and sustainable ecosystem for our community.

Monthly airdrops on Flare Networks provide a sustainable mechanism for growth and liquidity. These airdrops ensure that our community members have access to additional tokens, which can be used for liquidity provision, staking, or other utility within the Dog on Moon ecosystem.

Tokenomics

Total supply: 88,888,888 MOON

Distribution:

- The team holds 15% Moon tokens for marketing, growth, and incentives promotions: Our team is committed to the long-term success of Dog on Moon and will use these tokens strategically to support marketing efforts & community growth initiatives.
- 75% FLR burned in LP: Securing the liquidity pool.
- 25 % FLR The unburned tokens are reserved for monthly Flare drops, which will be used for buybacks of MOON tokens and burning. This mechanism helps to maintain a healthy level of deflation and incentivizes community participation.

Trading and Exchange

- Dog on Moon will be listed on BlazeSwap, a decentralized exchange built on the Flare Networks blockchain, providing liquidity and accessibility to our community members.
- We will actively be pursuing listings on other prominent exchanges and trading platforms to increase the visibility and liquidity of the MOON token and facilitate broader adoption.

Community and Vision

- Vision of building the strongest community in crypto: Our vision for Dog on Moon is to create a community that is united by a shared purpose and passion for cryptocurrency. We believe that by fostering a strong sense of belonging and empowerment, we can achieve remarkable things together.
- Importance of community involvement and engagement: Community involvement and engagement are at the core of our project. We recognize that our community members are our greatest asset, and we are committed to listening to their feedback, addressing their concerns, and involving them in key decision-making processes.
- Plans for community growth and outreach: We have a comprehensive roadmap for community growth and outreach, including social media campaigns, community events, educational initiatives, and strategic partnerships. Our goal is to continuously expand our reach and attract new members who share our values and vision.

Conclusion

- Summary of Dog on Moon's mission and vision: Dog on Moon is more than just a cryptocurrency project; it's a movement towards building a stronger, more inclusive crypto community. We are committed to fostering innovation, empowerment, and collaboration, and we invite you to join us on this journey to the moon and beyond.
- Call to action for community involvement and support: We invite you to become part of the Dog on Moon community and contribute your skills, ideas, and enthusiasm to help us achieve our goals. Together, we can create something truly special and make a positive impact on the world of cryptocurrency.
