TABARES DESIGN AND BUILD

# ABOUT US

Tabares Design & Build is an integrated design and construction studio focused on architecture-driven interiors and thoughtfully executed residential projects. Our work emphasizes spatial clarity, material integrity, and precise detailing, ensuring that each design concept is carried seamlessly from planning through construction. By uniting design and build under one practice, we deliver cohesive, well-resolved environments that balance aesthetics, functionality, and long-term value.

CREATIVE DIRECTOR

Architecture and interior design should not only respond to spatial needs but also resonate with the individuals who inhabit them.

Jeniffer Tabares Fuentes

ASSOCIATE CREATIVE DIRECTOR

Design should elevate the space without overpowering it.

Nikki Tran

# PROJECT OVERVIEW

This project began with a clinic in poor overall condition, lacking a cohesive design concept and defined only by basic functional room assignments.

Our role was to reimagine the clinic from the ground up, creating a purposeful, emotionally engaging environment that supports women's health, beauty, and community while elevating the brand to a true boutique experience.

# PROPOSAL

- **Concept & Design :**

We introduced a design cycle inspired by growth, femininity, and transformation, carried consistently throughout the clinic.

- **Outcome:**

The result is a fully cohesive, experience-driven clinic that merges healthcare, beauty, and brand identity. The renovation improved functionality, enhanced patient experience, and strategically positioned the clinic for organic marketing growth, reinforcing its identity as a modern boutique women's health destination.

# The Social Hub

The waiting area was reimagined as a Social Hub, using a living plant wall, green velvet seating, walnut wood panels, and a sculptural pink wave feature with neon lighting to create a visually engaging environment that enhances patient comfort while encouraging organic social media engagement and brand visibility.

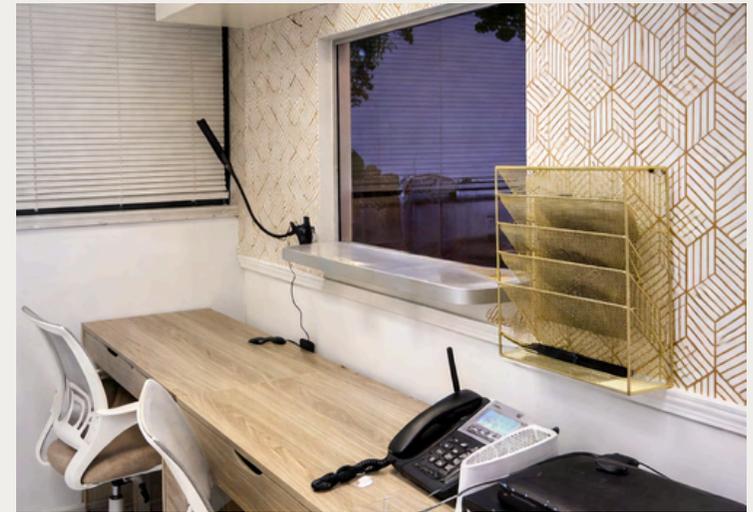

## The Social Hub Highlight

# The Care Concierge

Designed as a calming first point of contact, the Care Concierge uses soft gradients, warm tones, gold geometric wallpaper, a half-wall with clean white panel detailing, and thoughtful lighting to ease anxiety, build trust, and create a welcoming yet professional intake experience.

# The Care Concierge

# The Communal Area

- **Communal Hallway**

The hallway feature a flowing wave pattern that guides movement through the clinic while promoting calm, relaxation, and a seamless spatial transition between rooms.

- **Pantry / Break Area**

The pantry was fully reimagined as an elegant yet efficient sitting area, using refined fan-patterned wallpaper and thoughtful space planning to provide employees with a functional environment for meals within a narrow footprint.

- **Restroom**

The bathroom combine navy blue and white with elegant wallpaper celebrating women's wellness, accented with subtle gold details to create a refined, restorative atmosphere.

## The Communal Area

---

# The Operation Hub

The Operations Hub prioritizes clarity and efficiency through a restrained palette, structured gradients, and balanced lighting, supporting focused clinical workflows while reinforcing credibility, approachability, and the clinic's elevated brand identity through refined material continuity.

## The Operation Hub

# The Monarch Room

Monarch Room (Family Room) Inspired by the butterfly life cycle, the Monarch Room symbolizes transformation and care, offering a warm, inclusive environment designed to welcome patients and families of all ages.

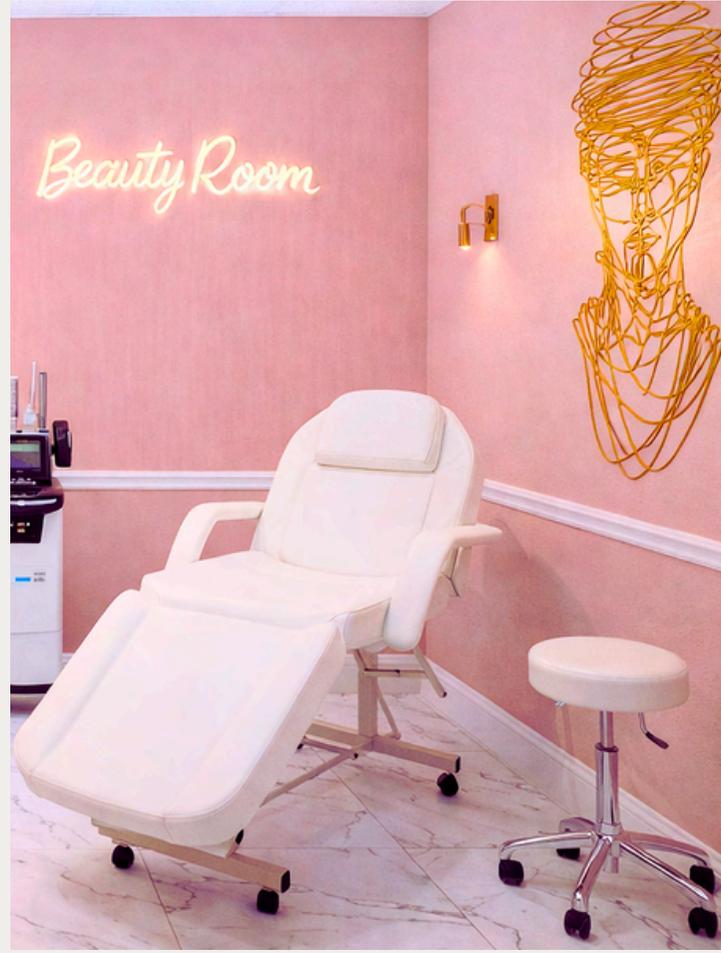

The Monarch Room

# The Radiance Room

The Radiance Room celebrates femininity, confidence, and self-care through layered shades of pink and gold, where abstract gradients balance playfulness with elegance to create a joyful, refined atmosphere that supports self-expression, empowerment, and intentional wellness-focused beauty services.

The Radiance Room

# The Serenity Room

Dedicated to pap smears and private health consultations, the Serenity Room uses navy and beige tones to convey elegance, calm, and discretion, enhanced by subtle gold accents, women-inspired sculptural elements, and artistic canvases that celebrate strength, dignity, and the female form.

The Serenity Room

# The Executive Suite

The Owner's Suite completes the design cycle through a harmonious blend of green, gold, and beige, creating continuity and a calm, grounded atmosphere that symbolizes leadership, balance, refinement, and stewardship while reinforcing the clinic's vision and sense of completion.

# Our Service

## *01. Integrated Design & Build*

We provide a fully integrated design and construction service that unites interior design, architectural detailing, and project execution under one practice. This approach ensures design intent is preserved from concept through completion, resulting in cohesive, well-resolved spaces delivered with efficiency, clarity, and accountability.

## *02. Interior Design*

Our interior architecture services focus on spatial planning, material selection, and detailed design development. We create architecture-driven interiors that balance form, function, and material integrity, delivering environments that are refined, culturally informed, and tailored to the way clients live and use their spaces.

## *03. Project Management*

We oversee all phases of construction, coordinating trades, schedules, and budgets to ensure precision and quality throughout the build process. Our project management approach emphasizes craftsmanship, transparency, and execution excellence, transforming design concepts into built environments with lasting value.

# Creative Process

01

*Listen & Define* – We begin by understanding the space, the lifestyle, and the vision to establish a clear design direction.

02

*Design & Refine* – Concepts are translated into thoughtful layouts, materials, and details that balance aesthetics with function.

03

*Deliver & Elevate* – Every element is curated and executed to create a cohesive, elevated environment that feels intentional and timeless.
