

HOW TO REVAMP YOUR LIBRARY

November 30, 2014 / News, Solutions

Sling books – Make an unorthodox display out of a few carefully chosen books by hanging them from cotton loops affixed to a rail on the wall. Not only does it look good, it also acts as a bookmark.

Books are more than just sources of knowledge; we form emotional attachments to our libraries and, for many, a well-stocked bookcase is the centrepiece of a room. Lisa Occhipinti's book, *Novel Living*, celebrates the written word, explaining how to be savvy when hunting for second-hand and vintage tomes, how to look after them once you've found them and how to display them in new and innovative ways.
