

Job Title: CNC Punch Press Operator

Company: North Topeka Fabrication, 3801 NW 14th Street, Topeka, KS 66618

Summary:

Seeking an experienced CNC punch press operator to join our team. Ideal candidates will have a strong understanding of set up and operation, as well as required quality and safety protocols while operating a CNC punch press.

Responsibilities:

- Read and interpret blueprints to identify parameters
- Sets up and operates CNC punch press, including tooling and program adjustments.
- Works collaboratively with a programmer to optimize production.
- Inspects raw materials and finished parts for quality and defects
- Monitors machine performance, and production status.
- Organizes and sorts parts for downstream operations.
- Document process checks to maintain tolerances and quality requirements.
- Performs basic cleaning and maintenance of equipment.
- Maintain a clean and organized work area
- Comply with all safety regulations and procedures

Qualifications:

- High School Diploma or equivalent
- 2+ years of experience operating CNC punch press technology, preferred
- Ability to read and interpret blueprints and work orders
- Proficient use of measuring tools (calipers, tape measure)
- Basic math skills
- Mechanical aptitude and problem-solving skills
- Ability to repeatedly lift 50-100 pounds, while standing and bending for extended periods
- Strong work ethic and attention to detail
- Ability to work independently and as part of a team
- Effective communication and interpersonal skills
- Willingness to cross-train in other fabrication functions

Benefits:

- 4 day work week
- Competitive salary, commensurate with experience
- Benefits include health, vision, dental and life insurance, and retirement plan options
- Opportunity to learn and grow in a dynamic and fast-paced environment
