

Job Title: Laser Machine Operator

Company: North Topeka Fabrication, 3801 NW 14th Street, Topeka, KS 66618

Summary:

Seeking an experienced laser machine operator to join our team. Ideal candidates will have a strong understanding of set up and operation, as well as required quality and safety protocols while operating laser cutting technology.

Responsibilities:

- Read and interpret blueprints to identify cutting parameters
- Set up and operate laser machines to cut a variety of metals and alloys
- Select and install appropriate cutting heads and nozzles
- Maintain and clean laser cutting machines and associated equipment
- Troubleshoot and resolve machine problems
- Monitor machine processes, and production status
- Inspects raw materials and finished parts for quality and defects
- Document process checks to maintain tolerances and quality requirements.
- Maintain a clean and organized work area
- Comply with all safety regulations and procedures

Qualifications:

- High school diploma or equivalent
- 2+ years of experience operating laser cutting technology, preferred
- Ability to read and interpret blueprints and work orders
- Proficient use of measuring tools (calipers, tape measure)
- Basic math skills
- Mechanical aptitude and problem-solving skills
- Ability to repeatedly lift 50-100 pounds, while standing and bending for extended periods
- Strong work ethic and attention to detail
- Ability to work independently and as part of a team
- Effective communication and interpersonal skills
- Willingness to cross-train in other fabrication functions

Benefits:

- 4 day work week
- Competitive salary, commensurate with experience
- Benefits include health, vision, dental and life insurance, and retirement plan options
- Opportunity to learn and grow in a dynamic and fast-paced environment
