

The Science, Technology, Engineering, Art, and Math (STEAM) Enrichment class for VPK students meets on Tuesdays and Thursdays. Curious children experience their world through exciting and authentic learning opportunities in STEAM. The students will learn how the STEAM pillars work together in real life. Students develop social skills, background knowledge, and extended vocabulary by engaging in a wide variety of tasks as they interact with their world in many ways.

Our committed and proficient educators collaborate closely with parents and caregivers to ensure each child's progress. Regular communication between home and school is facilitated weekly through Class Dojo.

Preschool children are enthusiastic learners who thrive on interactive experiences. At Waypoint Preschool, your child will engage in hands-on activities, fostering a love for exploration, creativity, inquiry, and the joy of discovering new concepts.

\*All programs are based on the curriculum guidelines set out by NAEYC (National Association for the Education of Young Children). \*
