We honor your dedication to each other and bring with us three main principles as we design and work with you: beauty, kindness, and creativity. It is our promise to you that your design and our communication will always be flexible, dependable, and compassionate. We aim to help your wedding planning feel uplifting and full of happiness.

Take Two

DONATION PROGRAM

Through the generosity of our couples and their families, we have the honor of offering our Take Two Donation Program for all full service and select à la carte wedding packages. Take Two is an optional repurposing service that gives a second life to your floral decor.

When participating, your flowers are repurposed and donated on your behalf to a local special care facility. This is a complimentary service with no additional fee.

Late Night

The Midnight Hour

“What goes up, must come down.”

As your reception celebration comes to a close and your venue rental hours reach their end, clean up for your event begins. Your venue will require all decor and florals to be cleared from the premises. Most venues require late-night pick-up and tear-down to be completed within one hour of your reception's end.

Our team will return for pick-up of our rental vessels, floral clean-up, and accomplish all floral installation tear-down at the end of your event.

Pick-up service is required for all full service packages that include rentals and/or installation designs. We will coordinate with your venue. This provides for compliance with your venue's policies and a worry/ stress-free night for you and your loved one.

“Our flowers were the definition of gorgeous.”

- Laura, Married at The Atrium

A little love from Kristin

"Valerie was truly a pleasure to work with. She made my entire wedding vision come to life!! She delivered the flowers of my dreams and took the time to work with me every step of the way. She took the time to meet with me countless times, walk me through options and designed the perfect floral design for my wedding when I had 0 floral knowledge myself. She was hands on even during my wedding and somehow managed to meet my budget no matter what curve balls I threw her way. I can truly say that my wedding would have not been the same without Valerie's help. She is the best and I highly recommend her!"

What's a floral installation?

A design that require just a touch of magic!

Floral installations are large scale pieces that require designer mechanics and our multi-person team to design and install on-site. We can bring in structural items (i.e. floral meadows, archways), work with your third party vendor rentals, or decorate fixtures and architecture that already exists on-site as part of the building's beauty.

Rentals

Our Private Rental Collection

- **Types of Rentals**

- We offer **structural** (i.e. archways and installations mechanics) and **decor** rentals including vases, candle holders, vessels, and accent tables. We are always adding to our rental inventory by count and design. Additionally, we offer hand crafted rentals as needed for custom designs.

- **Availability**

- Rentals are offered in both our luxe and signature packages. Pick-up and tear-down services for all rentals are required. We do not allow for next day drop-off returns. This is to guarantee the quality and quantity of our rentals remain intact with each wedding and professional tear-down.

- We offer beautiful and detailed varieties of take-home and keepsake vases for non-rental weddings. These are perfect takeaways for your loved ones.

- **How do I know which rentals are right for our wedding?**

- As we craft your design, we select and recommend options from our private rental collection exclusively for our full service package clients.

- **Where can I see your rentals?**

- A catalogue of our rental collection can be found online through our website honeybunchbouquets.com/rentals.
