About Nect2US

Nect2US provides consultancy services around the **international and strategic business expansion** of middle-market companies to North America.

Nect2US assists **mid-market companies** in setting ground by:

- + Identifying the most suitable options for their business expansion or addition in the United States (e.g. acquisition, greenfield project, partnerships);
- + Providing assistance along the way to ultimately provide a bespoke and ready-to-run business structure;
- + Providing continuous executive oversight and supervision; and
- + Providing supervision or management options post-M&A integration.

Our team benefits from **extensive knowledge** in both the United States and European markets as well as from substantial experience in dealing with **major OEMs**.

We have so much more to tell you
