At Grey Hall Design, we sisters set out to make the classic silk scarf current.

In addition to our line of fashion, home, and entertaining accessories and paper products, we are honored to partner with some of the most prestigious clubs, resorts, and museums, among other organizations, to surprise and delight members, guests, major donors, and alumni by bringing their stories to life through watercolors.

Our watercolor storytelling-on-silk is inspired by travel, nature, garden, and imagination. Grey is the talented watercolorist behind the brand, and Page is the Product Development visionary.

We are especially proud of our silk twill scarves! The "hand" is on par with the luxury fashion houses' silk twill, the edges are hand-rolled, and the color is sublime. However, our scarves are 38" x 38", which is larger than standard and gives versatility to the wearer.

We hope you like what you see! Thank you for the opportunity to share our passion with you.
