

VICTIM IMPACT STATEMENT

Mark Robertson

RE: 2025-0000003635-FH

Your Honor, thank you for your services to this community and for the opportunity to accept my statement.

I am Abigail Collier's father Jay Collier. My daughter Abigail has been deeply affected by this perpetrator. She had been living with her mother and Mark Robertson since she was quite young (12 years of age). Alienated from me, not allowed to visit, not allowed to contact her own father. She has been subjected to trauma and manipulation that is unacceptable.

On Abigail's 16th birthday she left the home at 3806 S Lachance Rd, McBain, MI 49657. She has had absolutely zero contact with her mother or Mark Robertson since that date. She is now 24 years of age. Our relationship has flourished since the day that she left. This should show the seriousness of how badly Abigail has been manipulated, treated and traumatized.

Her statements to her own mother, counselors, and CPS ignored. She was scared. No door knobs, no walls, no privacy. Mark in her room while she lay helpless trying to sleep. No reason this should ever happen to any other child again.

Abigail and I have both traveled to your courtroom for all hearings in regards to this along with friends and family. This has been destructive to our employment, finances, families and daily lives for everyone involved.

I as well as the community that you serve are asking that you grant the maximum penalty to Mark Robertson for the damage, mental instability, and chaos that he has caused. Please do not let any more lives or children be affected.

There are so many other children affected here. I have spoken with countless other parents. There is more to come of this. I'm confident that you are already well aware.

I was removed from my daughter's life for years because of this pedophile. Please serve justice and do not allow any other children to be put in danger. My Daughter was not the first victim and will not be the last unless justice is served.

Thank you Jay Collier
