# Robotics

Enriching your event with **Robotics** solution, making it memorial, providing both your attendee and exhibitors new added value with our solution. Starting from the marketing solution options on your event floor till the live media production.

# Robotics

- The Giveaways **Robot** is a Semi-autonomous delivery robot for busy places people work, live, and play. Able to operate and navigate around obstacles, It works alongside people in diverse and dynamic environments such as logistics, hotels, hospitals, Conferences and Exhibitions.
- The Robot** Can Be used to handle all your marketing materials in a specific Event, **The Robot** has the ability to move through the visitors and immediately stopped when someone pass by it and handle whatever it has to him.
- The Robot** consider as new marketing tool which will enrich your exhibition and make it completely different, It Can Be Use to your main Sponsors as a part of the sponsorship Package and it will give it a great Impact.
