- Standard: \$500 to create original melodies with grand piano guide & lyrics for an entire 3 minute song with some repetitive sections. Up to seven days for delivery without add ons. One revision included.
- Premium: \$1000 to create original melodies with Top-line vocals recorded to help guide not just the melody but emotions and dynamics. This also includes lyrics for an entire song with some repetitive sections. Up to ten days for delivery without add ons. One revision included.

## **Add Ons:**

- Additional Verse for \$100 and up to one more day onto delivery.
- Chorus for \$100 and up to one more day onto delivery.
- Bridge for \$100 and up to one more day onto delivery.
- Vocals Recording aka Top-lining for \$500 and four more days for delivery.
- Commercial use for \$500. Message me if you are unsure if you need this.
- Additional Revision for \$100. After I deliver, you get one more revision in case there was some misunderstanding in communication in the clear directions you will need to give me for your project. This will add on up to four more days to delivery.
- Harmonies & Ad libs for \$500. I will create harmonies and Ad Libs for your guidance. I don't suggest this for the Basic Package. For adding onto the Standard Package, this will only have piano guidance. For the Premium package I will record the vocal top-line for your guidance. This will add on up to four more days to delivery.
- Help you write for \$1,000. This is great to add on to any package that you want if you are also wanting coaching to become your own songwriter. This will add on up to two weeks to delivery as we will need to find time to get together online over video or audio chat to complete one song that fits the package you chose. Note that I am not a vocal coach but I know a great one!
