

Adventures in short-term rentals #8

Airbnb rental house sleeps 17 sort of.

Airbnb.com recently introduced these sleeping accommodation icons. They let property ads indicate how even large groups of renters can cram themselves in.

The pay-per-night cost goes down, and Airbnb users (mostly cash-strapped Millennials) can finally afford to whoop it up next door to you.

Barnstable's Zoning & Regulatory Committee sent the Town Council a short-term rental policy that changes residential zoning. It also allows these rentals to exceed legal occupancy limits, and use common areas as bedrooms. *You* can't put our septic and groundwater at risk — but the Airbnb next door can.

Get involved or get used to it.
