Modern day karts are nothing like the go-karts at your local amusement park. They have evolved into highly sophisticated racing machines capable of performing like a Formula One or Indy Car, only on a smaller scale. The sport of karting offers more performance than any other form of motorsports at a fraction of the cost, reaching speeds over 90mph while pulling over 2 lateral g-forces in a corner! **ABOUT MCC** We love karting! Our vision is to provide a local establishment where members and their families can satisfy their “need for speed” or just relax in a fantastic motorsports atmosphere. Karting is a great family sport for ages 5 – 75+ with an excellent safety record and memories that will last a lifetime!

THE TRACK MCC features a professional .95-mile paved road course specifically designed to FIA standards for high-performance kart racing. MCC is the one of the premiere kart racing tracks in the country. **FACILITIES** Our 5000 square foot club house includes men’s and women’s locker rooms, a kitchen, dining room, observation deck, mini-café and lounge area with indoor and outdoor seating for about 150 guests. We also have a full-service sales, preparation, race shop and our own ProAm Karting Championship Club racing series. Our in-house race team, Trinity Karting Group, provides private coaching and national racing programs for those who want to take their motorsports dreams to the next level. Shawn Bayliff, owner and club pro brings over 40 years of racing experience with many national championships from karting to dirt Sprint Cars to Formula and IMSA Sports Cars. **LOCATION** We are conveniently located in the beautiful countryside just a few miles east of Cincinnati at 2848 US Hwy 50, Batavia, Ohio 45103.
