SECTION I

INDEPENDENT ACCOUNTANT'S REPORT

REPORT OF THE INDEPENDENT ACCOUNTANT

To the Management of Starfield Technologies, LLC ("Starfield"), a subsidiary of GoDaddy, Inc. ("GoDaddy"):

Scope

We have examined Starfield's management assertion that for its Certification Authority ("CA") operations at its Phoenix, Arizona, USA, and Ashburn, Virginia, USA, locations, for its CAs as enumerated in Appendix A, Starfield has:

- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum throughout the period July 01, 2024 to June 30, 2025, based on the WebTrust Principles and Criteria for Certification Authorities – Network Security v1.7.

Certification Authority's Responsibilities

Starfield's management is responsible for its assertion, including the fairness of its presentation, and the provision of its described services in accordance with the WebTrust Principles and Criteria for Certification Authorities – Network Security v1.7.

Practitioner's Responsibilities

Our responsibility is to express an opinion on Starfield management's assertion based on our examination. Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and in accordance with International Standard on Assurance Engagements 3000, Assurance Engagements Other than Audits or Reviews of Historical Financial Information, issued by the International Auditing and Assurance Standards Board. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether management's assertion is fairly stated, in all material respects. An examination involves performing procedures to obtain evidence about management's assertion. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material misstatement of management's assertion, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

We are required to be independent and to meet our other ethical responsibilities in accordance with the Code of Professional Conduct established by the AICPA and the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants.

We applied the Statements on Quality Control Standards established by the AICPA and, accordingly, maintain a comprehensive system of quality control.

The relative effectiveness and significance of specific controls at Starfield and their effect on assessments of control risk for subscribers and relying parties are dependent on their interaction with the controls and other factors present at individual subscriber and relying party locations. Our examination did not extend to controls at individual subscriber and relying party locations and we have not evaluated the effectiveness of such controls.

Inherent Limitations

There are inherent limitations in the effectiveness of any system of internal control, including the possibility of human error and the circumvention of controls. For example, because of their nature, controls may not prevent, or detect unauthorised access to systems and information, or failure to comply with internal and external policies or

requirements. Also, the projection to the future of any conclusions based on our findings is subject to the risk that controls may become ineffective.

Opinion

In our opinion management's assertion, as referred to above, is fairly stated, in all material respects.

This report does not include any representation as to the quality of Starfield's services other than its Certification Authority operations at its Phoenix, Arizona, USA, and Ashburn, Virginia, USA, locations, nor the suitability of any of Starfield's services for any customer's intended purpose.

Use of the WebTrust seal

Starfield's use of the WebTrust for Certification Authorities – Network Security Seal constitutes a symbolic representation of the contents of this report and it is not intended, nor should it be construed, to update this report or provide any additional assurance.

SECTION 2

MANAGEMENT'S ASSERTION

STARFIELD
TECHNOLOGIES

MANAGEMENT'S ASSERTION

Starfield Technologies, LLC ("Starfield") operates the Certification Authority ("CA") services for its CA certificates as enumerated in Appendix A, and provides SSL CA services.

The management of Starfield is responsible for establishing and maintaining effective controls over its SSL CA operations, including its network and certificate security system controls. These controls contain monitoring mechanisms, and actions are taken to correct deficiencies identified.

There are inherent limitations in any controls, including the possibility of human error, and the circumvention or overriding of controls. Accordingly, even effective controls can only provide reasonable assurance with respect to Starfield's Certification Authority operations. Furthermore, because of changes in conditions, the effectiveness of controls may vary over time.

Starfield management has assessed its controls over its SSL CA services. Based on that assessment, in Starfield management's opinion, in providing its SSL Certification Authority (CA) services at its Phoenix, Arizona, USA, and Ashburn, Virginia, USA, locations, Starfield has:

- maintained effective controls to provide reasonable assurance that it meets the Network and Certificate System Security Requirements as set forth by the CA/Browser Forum throughout the period July 01, 2024 to June 30, 2025, based on the WebTrust Principles and Criteria for Certification Authorities – Network Security v1.7.
