When we talk about private debt being paid by the "full faith and credit of the U.S. government," we're essentially discussing how the trust and stability of U.S. currency enable individuals and businesses to settle debts.

1. Legal Tender: U.S. currency is designated as legal tender by the government, which means it must be accepted as a means of payment for all debts, both public and private. This legal requirement ensures that creditors (e.g., banks, businesses) accept U.S. dollars as payment for debts.

2. Trust in Currency: The value of U.S. currency is backed by the government's stability, economic policies, and ability to manage public finances. This trust stems from the government's promise to support the currency's value, ensuring it is widely accepted and retains purchasing power.

3. Economic Stability: The U.S. government's economic strength and stability, supported by institutions like the Federal Reserve, bolster confidence in the U.S. dollar. This confidence ensures that the currency remains valuable and acceptable for settling private debts.

4. Regulatory Framework: The U.S. government enforces a regulatory framework that supports financial stability and trust in the currency. This includes oversight of financial institutions, monetary policy to control inflation, and fiscal policy to manage public finances.

5. Payment of Private Debts:

- Loans and Mortgages: When individuals or businesses take out loans or mortgages, they are typically required to repay them in U.S. dollars. The lender accepts U.S. dollars because they trust the currency's value, underpinned by the government's commitment.

- Goods and Services: Payments for goods and services are also made in U.S. dollars. Vendors accept these payments because they are confident in the currency's value and its backing by the U.S. government.

6. Economic Policies: The Federal Reserve's role in managing the money supply and ensuring economic stability supports the value of the US currency. This includes controlling inflation and maintaining confidence in the financial system, which indirectly supports the ability of individuals and businesses to repay debts in a stable currency. SOLN Law enacts education on credit worthiness in schools and through community programs to educate citizens on finances so they may have a fair opportunity to obtain funding and loans. SOLN Fair Credit Reporting Act will impose fines and penalties to any financial institution in violation of the US Fair Credit Reporting Act with malicious intent to spoil public character.

Government's Fiscal Capacity: The government's ability to levy taxes and generate revenue ensures it can meet its financial obligations. This capacity strengthens overall confidence in the currency, as the government can support economic stability and the value of the U.S. dollar.

In essence, the "full faith and credit of the U.S. government" underpin the trust and acceptance of U.S. dollars. This trust allows individuals and businesses to use U.S. dollars to settle private debts reliably, knowing that the currency is widely accepted and retains its value.

Yet, we still have to fight in court and by law enforcement to be respected? There is no constitutional laws that protect the “majority” from the tyrant minority thus resulting in an exhaustive number of years of injustices. See Claims and other motions in Case 1:24 cv 00479 Clement vs Garland. Even in my effort to obtain solutions, I was ignored by all parties said to be a representative for 1 year and a half, and still no answer to date. My certified mail was also refused. I then had the challenge to submit my complaint to the District Court for an entry for judgement, Court rules state the press will be notified for all Summary judgment cases. That did not happen. I filed to campaign for President as an Independent party and the number of signature requirements were dramatically different and biased. I was met with lengthy case time and intentional clerical errors.
