KICK OFF YOUR SUMMER WITH HOME SAVINGS

Mortgages Made Easy!

NEWSLETTER

INTERESTED IN PURCHASING A HOME WHILE EARNING A NON-TRADITIONAL INCOME?

Securing a mortgage when you are self-employed, operating a business, or managing freelance income streams requires a specialized approach, but it should never stand in the way of homeownership. As an independent broker, we work directly with specialized wholesale lenders who evaluate your overall financial health using comprehensive documentation, such as bank statement programs.

Summer is officially here, and the housing market is heating up along with the weather. Whether you are looking to buy your dream home before the new school year or lock in a rate for a summer move, June is a fantastic time to get started!

The spring buying rush is shifting into high gear for summer. If you have been sitting on the fence waiting to house hunt, don't wait much longer! Homes are hitting the market and well-priced properties are still seeing competitive offers. Having a pre-approval letter in hand is your ticket to being taken seriously by sellers.

Reach out to us to understand the difference between a pre-qualification and a pre-approval!

LOAN OF THE MONTH!

Our most recent client's testimony:

"Rene and his team made this the easiest process. They were knowledgeable and experienced and answered all my questions. I've always heard that house buying was difficult but they did all the heavy lifting. If you're looking to start the process get with these guys they will take care of you."
