

Workshop

1. Cohesiveness, adhesiveness, porosity etc.
2. Types of pattern
3. Pattern are made of what material (Wood, plastic, wax, etc.)
4. Property of sand...
5. Moisture
6. amount of clay in sand
7. types of forging
8. Recrystalline temperature
9. Forging temperature
10. Allowances
11. Ac dc
12. Types
13. Tools for welding, forging, foundry
14. Methods for welding, forging, foundry
15. Forging temperature
16. Why casting is used
17. Casting v/s forging
18. Welding

**NOTE:- WELDING, FORGING, FOUNDRY MA SA 1 TOPIC
ACHA KARLO .**
