Glam pics are shot in sunning black and white, and utilize an all white backdrop and special skin smoothing software to make everyone look like a celebrity. We include the glam option with all of our booths at no extra charge!

Unlike conventional photo booths which simply give you a print out of your images, our cloud based system delivers photos, boomerangs, gifs, and videos to your guests instantly via text or email. Photos and other media are sized perfectly for instant sharing on all social media sites. A custom live gallery is accessible from the booth's home screen, and the gallery is also available to your guests from their smart phones or tablets.
