

ABOUT US

Today, Perfections is a comprehensive technology solutions & integration services provider, founded in 2014. Established to deliver a cost-effective & professionally implemented Office and Turnkey solution.

SPECIALIZATION

- * Networking & security services
- * Conferencing / Seminar / Hybrid Room for meetings.
- * IOT based smart sensor system
- * Smart Class / Lecture Room
- * Renovation of rooms with Wooden, Acoustic, Flooring, etc.
- * IP based surveillance system.
- * Audio video solutions.

AND MANY MORE

PERFECTIONS

**Optimized Technology
Integration**

VIDEO CONFERENCING SOLUTION

SMALL VIDEO CONFERENCING SYSTEM

A Small video conferencing solution designed for the Company Meetings, Training sessions, & Board Members Meeting at a capacity of **10 to 15 persons**.

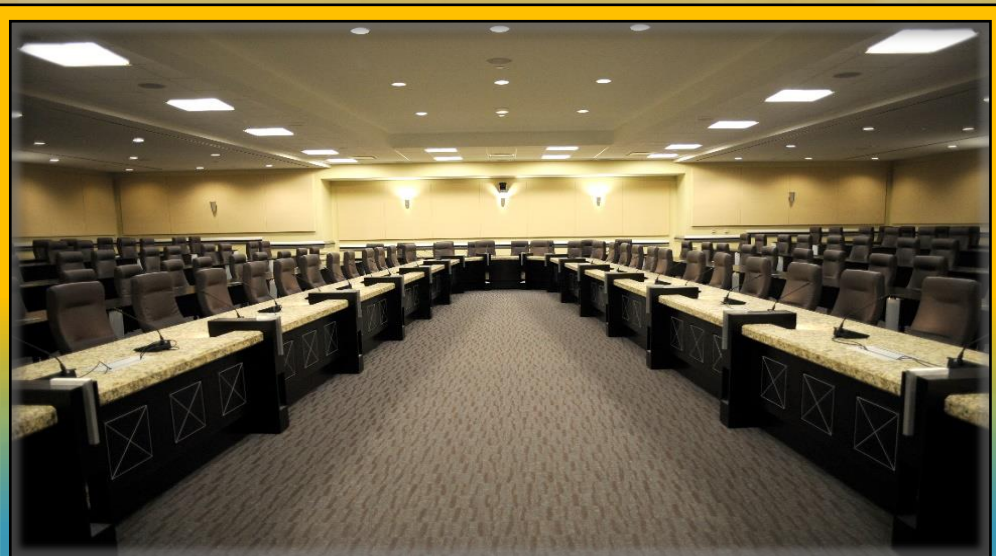

MEDIUM VIDEO CONFERENCING SYSTEM

A Medium video conferencing solution designed for the Company Meetings, Training sessions, & Board Members Meeting at a capacity of **15 to 50 persons**.

LARGE VIDEO CONFERENCING SYSTEM

A Large video conferencing solution designed for the Company Meetings, Training sessions, & Board Members Meeting at a capacity of **50 to 200 persons**.

DIGITAL CLASSROOM SOLUTION

AUDIO & VIDEO PODIUM

INTERACTIVE FLAT PANEL

VERTICAL SIGNAGE DISPLAY

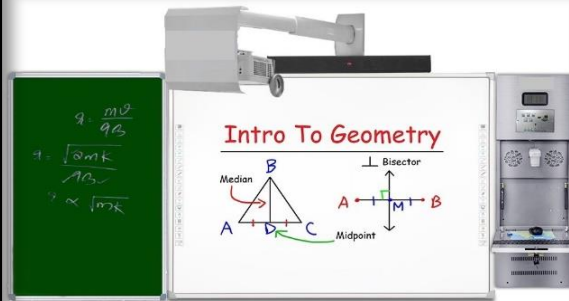

SMART CLASS ROOM

SMART CLASS ROOM

INFORMATION KIOSK

DIGITAL TEACHING SYSTEM

Document Visualizer

PROJECTION SYSTEM

DIGITAL WRITING BOARD

PTZ CAMERA

SMART SOLUTION PRODUCTS

LECTURE RECORDING LABS

IOT & ROBOTICS LABS

LED DISPLAY WALL

BODY WORN CAMERA

BIOMETRIC/FACE RECOGNITION MACHINE

IOT PRODUCTS

* We provides a complete hardware and a software development kit (SDK) for Wireless Sensor Network to deliver reliable IOT, M2M, and smart cities solutions.

Industry

Temperature, Ultrasound, Pressure, Liquid level & gas flow, weight, chemical, actuators (Pumps, PLCs, variable frequency drives, relay, etc.).

Air

Temperature, Humidity, & pressure. Measurement of Air parameters CO₂, CO, NO₂, NO, O₃, SO₂, CH₄, H₂S, CO₂, O₂, NH₃, & particle matter (PM₁ / PM_{2.5} / PM₁₀) - Dust 1

Cities

IR human presence, Hall Effect, Liquid level/Flow, Atmospheric pressure, **Luminosity for smart lightening**, Noise Level (dBA), etc.

Parking

Detection of parking availability. IP68 and IK10 protection and fully certified (CE and FCC). Detection with radar and magnetic technology combination. LoraWAN communication protocol.

Meshlium

It is an IOT gateway to connect any sensor to a cloud Platform. It can receive, parse and stores frames in its local database. Specially designed for harsh conditions.

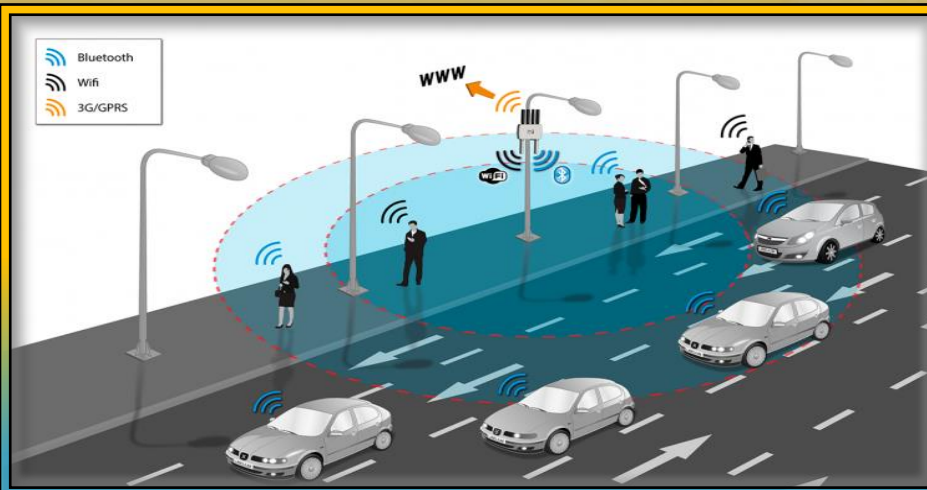

Wasp mode Plug & play
1) Ultra low power (7µA).
2) 120+ sensors on seven Sensor Boards.
3) 15 Radio technologies with Industrial Protocols: **RS-485, Modbus, CAN Bus, 4-20 mA.**

Meshlium Scanner

- 1) Understand traffic flow; detect congestion points to optimize access to cities, airports, malls.
- 2) Measure the amount of people and cars, which are present in a certain point at a specific time.
- 3) Monitoring person and car movement to improve user experience in shopping areas and roads.

NETWORKING SOLUTION

NETWORK INFRASTRUCTURE

Network Infrastructure

We design & implement a complete network infrastructure solution, from optical fiber to wireless access points, including foundational hardware, Software, services, and facilities. **We supply the OFC [(STP/UTP)/patch cord], CAT6 (STP/UTP cable), LIUs, Firewalls, Routers, Switches (L2, L3, PoE, Non-PoE, & Hubs), SFPs, Media Converters, Access points, EPBX system, Servers, Load Balancers, IDS, SAN, Network printers, etc.**

Network Security

In this world of privacy, we ensure the complete security of your entire system. Our experienced network security engineers will look into every aspect of network security, from the Firewall to the router, from the L3 switch to the end-user, servers, IDS, Storage area network (SAN), WSN, WAN/WLAN, etc.

NETWORK SECURITY

WIRELESS NETWORKING

IP SURVILLANCE SOLUTION

DOME CAMERA

BULLET CAMERA

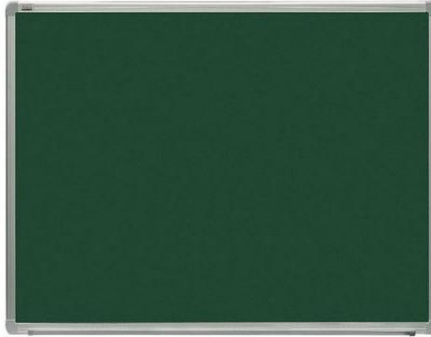

NETWORK VIDEO RECORDER (NVR)

The screenshot displays a VMS interface with a multi-camera view. The interface includes a sidebar with a tree view showing 'Devices', 'Layouts', 'Plugins', and 'Bookmarks'. The main area shows a grid of camera feeds. The top-left feed shows a snowy outdoor area with a timestamp of 14:38:14 17.01.2017 and the label 'Entrance C Outside guests'. The top-right feed shows a snowy outdoor area with a timestamp of 14:36:14 17.01.2017 and the label 'Entrance C Outside'. The middle-left feed shows a snowy outdoor area with a timestamp of 14:36:14 17.01.2017 and the label 'Parking 1'. The middle-right feed shows an indoor office space with a timestamp of 14:36:14 17.01.2017 and the label 'Office'. The bottom-left feed shows a snowy outdoor area with a timestamp of 14:36:14 17.01.2017 and the label 'Entrance C'. The bottom-right feed shows a snowy outdoor area with a timestamp of 14:38:14 17.01.2017 and the label 'Trash station'. The interface also features a playback control bar at the bottom with a timeline and a red banner at the bottom right that reads 'VMS (VIDEO MANAGEMENT SYSTEM)'.
