# Consult Lemonade
# Monthly Newsletter

Hello Lemonaders! Let's kick off this new year right! We have exciting news to share with you. From the opening of The Resume Virtual Class to the registration dates for our 3rd Official AWS Cloud Cohort and more, we have much to discuss. Let's get to it!

## Upcoming Events

**Cloud Cohort #3 Launches: Feb 17th**
Invitations to apply for the 25 available spots will be sent by the end of the month. This is a 13-week cohort to prepare for the AWS Cloud Practitioner Exam, one of the hottest certification attractive certifications in the industry.

**Sweet and Sour Tech Talk: Feb 20th**
Join us for our next Podcast Episode of Sweet and Sour with Host Leslie Butler Joining us again to discuss on Addressing InSecurity about being in Tech.

**Agile and Atlassian Training: March 23rd**
Get training from Dr. Arielle Gaither on the process of Agile with added training on Atlassian tools.

**Virtual Resume Workshop: March 26th**
We created a workshop that teaches you how to generate a resume that can position you to be hired in the Tech Industry. The coaches leading this workshop are Coach Brent and Coach Wail. You will have access to professionals with IT Program Management background, coaching, and hiring experience.

**Family Day in the Cloud: March 30**
Ready to Join the Cloud?☁️
Bring your family & friends to interact with new and innovative technology!
This event is for anyone in the local community who is curious about cloud computing and future job possibilities in the cloud. Access fun and engaging cloud skills training and interactive exhibits, as well as career networking and job placement events with local employers and organizations.
~🥤Refreshments will be served.~

**Annual friendRAISER: April 27nd**
It's our Birthday!! Join us as we celebrate another year of Consult Lemonade. Tickets will be rolling out soon with different tiers depending on if you want to virtually attend or just to support us by donating any amount.

**Lemonade and Life Skills: Family Tech Summit July 27th**
Join us for fun tech-filled activities for the entire family to enjoy! Attendees will explore new technologies, innovation, and career opportunities. You will hear from some of the Industry's leaders, experience hands-on activities, and explore what Tech has to offer. Breakfast and lunch will be provided.

## Hot jobs

A **UI (User Interface) designer** focuses on creating visually appealing and intuitive interfaces for software applications or websites, working with elements like buttons, icons, and typography. On the other hand, a **UX (User Experience) designer** is concerned with the overall user experience, considering aspects such as usability, functionality, and user satisfaction. While UI designers concentrate on the visual design, UX designers look at the broader picture to ensure a seamless and enjoyable user journey. In some cases, these roles may overlap, but in larger organizations, they are often distinct, with designers working collaboratively to enhance both the visual and experiential aspects of a product..

## Get to Know

Welcome one of our newest members of the team, **Alexandra Wine**. With her incredible skills as a UI and UX Designer, she meticulously crafts websites and digital applications that are not only pleasing to the eye but also easy to navigate and understand as a user. Her reserved personality yields creative results as she focuses on out-of-the-box thinking when it comes to helping others with her art. She's an anime enthusiast with a love for Japanese culture and aspires to travel there someday. She's constantly learning ways to improve her skills and chooses to assist Consult Lemonade in our effort to enhance the experience for our candidates. Her advice for anyone joining our team is to "be flexible but ready to take on significant responsibilities depending on your role and goals."
