We offer both **short-term** and **long-term** boarding options. If your dog needs special supervision, they'll stay in our home, and visit the facility daily for walks and playtime.

Your dog will be interacted with from 6:00 AM to 9:00 PM. Each dog is under individual camera supervision when unsupervised by staff. We are located just one minute away from the boarding suites, and one of our owners is a certified emergency canine trauma registered nurse, meaning the security and care of your dog is personal to us.

## Care & Comfort

Socialized dogs enjoy daily playtime in our indoor playroom with other furry friends and a variety of toys. Every dog gets daily leash walks outdoors for one-on-one time with our employees.

Before bed, our kennel tech makes a final round between 8:00-9:00 PM to ensure everyone is fed, watered, and comfortable in their own orthopedic padded elevated K9 ballistic dog cot.

## Bonus Perks!

Boarding stays of two or more days include a **complementary bath and nail trim** (not a full groom).
