Review A documentary purporting to be of instructive value about sexual development from infancy to pubertyIt purports to be a sex education film and to a certain extent, it is so. But the nudity and sex shown in the film is somewhat bizarre and not at all appealing what it is trying to claim. It subtly exploits under age nudity and sex to earn the lot. Perhaps to a connoisseur of existential realism, the film may be depicting what might have been going through the rungs of infancy to puberty of boys and girls. But in my opinion, one should not invest on such taboos to woo finance, but okay if the real intention is pedagogy. It seems the under age actors donned for the film are of the actual age as portrayed in the documentary. Behold it at your leisure, invest your wisdom on it, and infer whether it is a documentary or an under age sex farce. Being the paternal parent to my two daughters, I could not digest this on screen element. Whatever be the freedom extended to art forms, child nudity and child sex should not be allowed as a lucrative art. Let the children be children as immaculate lily. I have a strong apprehension that the under age actors in the documentary (?) are victims of art or run into it upon penury. May not it be so. prasanthsaregamajan 23, 2013 Sign in to rate and Watchlist for personalized recommendations Sign in Suggest an edit or add missing content What's your next favorite movie?
