Range 1 (Electronic Signals)

- Acceptable Firearms
 - o Rifles and Pistols - Center Fire, Rimfire or Black Powder
 - o Up to .50 BMG
 - o Shotguns with Slugs or for Patterning
- Acceptable Target Stands
 - o Permanent Target Stands are provided.
- Target Placement
 - o When placing targets on target stands do not place targets in front of areas that will damage the target holder frame.
- Acceptable Targets/Distance
 - o Paper or Cardboard in provided permanent target stands.
 - o Commercial Quality Steel Targets
 - o Steel targets must present a consistent vertical shooting surface parallel to the firing line
 - o Paper from 25 to 100 Yards
 - o Steel from 25 to 100 Yards

Targets must be placed at the height to align bullet impact **on the berm**; ricochets over berm must be avoided at all cost!

Range 2-5 (Electronic Signals)

- Acceptable Firearms

- o Rifles and Pistols - Center Fire, Rimfire or Black Powder
- o Up to .50 BMG
- o Shotguns with Slugs or for Patterning

- Acceptable Targets/Distance

- o Paper or Cardboard in provided portable target stands.
- o Paper or Cardboard in member provided stands.
- o Commercial Quality Steel Targets
 - o Steel targets must present a consistent vertical shooting surface parallel to the back berm
- o Paper from 1 to 50 Yards
- o Steel from 10 to 50 Yards

- Acceptable Target Stands

- o Portable H Frame Stands
- o Member provided Stands

- Target Placement

- o Target placement needs to ensure that all rounds terminate on an approved steel target or in the back berm. See images below

DELIBERATE DESTRUCTION OF TARGET FRAMES OR STANDS WILL BE CONSIDERED VANDALISM.

Self-Police Policy

Anyone using the range is responsible for reading and understanding the range utilization rules. Shooters are expected to enforce these rules. If a violation is observed, ask violators to discontinue the behavior or stop shooting. Repeat violations should be reported to the Board of Directors. Note: The posted utilization rules are applicable when using a range which is not under the control of a board approved Range Officer. When a Range Officer is present, please defer to their guidance for active rules.

B is the correct placement of targets on Bays 2-5.
