

## Jesus and Pick Up Sticks?

Do you remember playing Pick Up Sticks? You have to carefully take off the top stick without making any of the others move.

Let's say the black stick represents the 'issue' you want Jesus to deal with. If this stick (issue) is on the top, he can deal with it and remove it right away. However, if the black stick (issue) is in the middle or on the bottom, since we don't see the issue clearly, only Jesus knows what needs to be removed first before He can give you the capacity to face the issue and heal it.

Inner healing is a by-product of spending time in intimacy with Him.
