

## Dog Overboard Checklist:

---

Conduct a "Dog Overboard" drill prior to cruising or sailing!  
Make sure your tail wagger is wearing a life jacket!

### Procedures for Recovering your Paw Mate:

- Shout out to all passengers onboard "Dog Overboard"
- Sound an alarm & put boat in neutral
- Push the MOB on the GPS
- Throw a ring buoy or some sort of floatation device that your pup could possibly climb up on
- Post a lookout to keep the overboard tail wagger in sight
- Locate your dog's first-aid kit
- Notify on channel 16 to all other vessels in the area that you have a dog overboard
- Maneuver the vessel carefully to pick up the pup
- Have a crew member put on a life jacket with a safety line attached at the stern of the boat to lift the pup out of the water.
- Notify the Coast Guard if your pup cannot be located.

**Do Not Give Up on Locating Your Pup!!**

**Print out and laminate this checklist and keep it on the boat where  
it can be located quickly**
