- **NO COST SERVICES**
- **ALL YOUR CASES FROM \$10,000 +**

Unfortunately, settlement funds can disappear in a number of ways, including bad investments, stock market fluctuations, loans to friends and relatives, and unwise or frivolous purchases. Because a Structured Settlement is a guaranteed source of tax-free funds, it can be an extremely beneficial settlement option for plaintiffs.

To help protect settlement recipients from financial misfortune, a concept called Structured Settlements was developed in the early 1970's. A Structured Settlement is an agreement between parties, pursuant to existing Internal Revenue Regulations, which provides tax-free payments for an agreed upon period of time or for the life of the plaintiff.

Structured Settlements provide a guaranteed stream of income to the plaintiff that is completely tax-free. Settlement funds enter the Structured Settlement tax free, continue to grow tax free and are dispersed tax free.

Regardless of what happens to the stock market, the economy or interest rates, the benefits from a Structured Settlement are guaranteed and free of market risk, providing the plaintiff lasting protection.

The payments can be made for virtually any length of time, even for the plaintiff's lifetime. In the event of the individual's death, the payments may be made to the estate or a named beneficiary.

Plaintiffs can avoid all risk which may result in financial loss and hardship. The security and stability enables long term peace of mind knowing their payments will be received on the scheduled dates. The payments can be tailored to meet specific needs in the future. With the use of a lifetime payment, a plaintiff can ensure that he/she will never outlive the stream of income as the payments will continue until the time of death.

Structured Settlements are based on a settlement plan for immediate cash and future tax-free payments. Structured Settlements are designed by the plaintiff in order to maximize their settlement by receiving secure and tax-free payments. (IRS 104(a)(2))
