

Megan Crompton has served on the WNA for three years and is currently Vice President of the WNA. It has been an exciting time to serve on the WNA as Walden has experienced tremendous growth and many changes since I first was elected to the Board. Because Walden is an incredibly unique and diverse neighborhood, the Board is constantly faced with making decisions that are in the best interest of Walden residents while also being fiscally responsible. Over the course of the last few years, we have implemented new traffic and safety measures in the neighborhood, opened the Walden Pool/Hall and tried to manage those growing pains, dealt with endless landscaping and snow removal efforts, and overheard numerous resident complaints about the always pleasant topic of dog poop in the Terra Park....just to name a few.

I am seeking another term because we live in one of the greatest neighborhoods in Cumberland County and life is actually really good in Walden. Though we don't always see eye to eye, this Board works incredibly well together and truly does have the best interests of Walden at heart. We acknowledge that we all come from different perspectives and understand that some of the decisions we're faced with will be supported by residents and others will not. As a Board member, I have given thoughtful consideration to every issue that is before the Board and I do not take this post lightly. As Walden continues to grow, I would like to be part of the ongoing discussions and challenges that we face.

On a personal note, I am your neighbor and live at 71 Tavern House Hill. We have two daughters and a puppy that probably barks too much if you by chance walk by our home. I also serve as the Vice President of a Government Relations at a lobbying and political consulting firm in Harrisburg. Thank you for your consideration.
