

Hi-Def Silicone Embellishment

A next-generation embellishment featuring a single-layer, high-definition silicone design bonded to a woven substrate for a refined, durable finish. With painted edges, six-color capability, and precision detail, it delivers a clean, premium look that elevates any headwear style.

The HD Silicone Patch represents the next generation of precision embellishment — a single-layer, high-definition silicone design bonded to a woven substrate for a refined, durable finish. With painted silicone edges for a clean, modern look and the ability to execute fine details in up to six colors, this technique delivers both technical sophistication and broad design flexibility.

Lightweight, low-profile, and adaptable to any headwear style the HD Silicone Patch offers a premium, retail-ready aesthetic that elevates any brand mark with clarity and confidence.
