# Count Every Vote Protect the Results Save Our Democracy

The 2020 election has been the most important of our lifetime. Record numbers of citizens have cast their ballots, and votes are still being counted in some states. We have seen and are witnessing unprecedented efforts to undermine, discredit and overturn election results through disinformation, voter suppression, interference with mail and the voting process, phony allegations of voter fraud, meritless legal challenges and more. Our challenge now is to protect the election results and ensure that there is a peaceful, proper transition of presidential power.

National organizations, including Indivisible, RepresentUs, Protect the Results, Choose Democracy, Smart Elections, the Hold the Line Project and the Transition Integrity Project, have researched, planned and prepared for this moment. We join with these organizations and demand that all votes be counted and that the true results of the election be respected. To manifest the people's determination, activities are being organized and conducted around the country, including peaceful, safely distanced demonstrations, vehicle caravans and cooperative efforts with public officials.

**THROUGH YOUR VOTE, YOU MADE YOUR VOICE HEARD. NOW, ACT TO PROTECT THE RESULTS – AND OUR PRECIOUS DEMOCRACY.**
