REVOLUTIONIZING THE FOOD INDUSTRY

# OUR PRODUCT

*Just Baked is a unique automated kiosk that makes fresh food on the spot within a minute; it can make anything from cookies and brownies to pizza and cheeseburgers. With minimal labor and no kitchen or food training requirements, this is an exciting revenue-generating asset that provides a unique customer experience for your venue.*

*Our team has been constructed to support your success with the Just Baked Smart Bistros. Your success is our success, so you'll receive resources, unlike any other product you've worked with in the past. We will deploy the machine at zero cost to you and our team handles all costs associated with deployment, including electricity, restocking, maintenance, etc.*
