

Welcome Infants and Families.

We are excited to see you soon. Even though our infants are on their own schedules, we offer daily activities that will include, being read to, exploration of colors, shapes, and textures. Also, finger plays and music and movement. We will also do indoor and outdoor gross motor time with the children. Your children will receive a lot of attention and tender loving care in a small class size. We will correspond with each family through our daily sheets as well as our procare parent engagement app sending lots of pictures to you so you can see how much fun your babies are having at FCLC.

Things you will need to bring to school for your child. Please make sure to label everything with the child's first and last name.

- Pre Filled Bottles- We have a refrigerator that we will store their bottles and food in throughout the day. Make sure to label your bottles with your child's first name or initials
- Please send the number of bottles that your child could go through during the day. We will send home any unused bottles. We keep them refrigerated until we use them.
- Food- If your infant is older and eats food at home we will be more than happy to feed them baby food or solid foods at the center. Please send them in separate containers already preheated if needed. We will not be heating any food at the center.
- Snacks- If your infant likes to snack on foods like puffs, cheerios, teething wafers, etc. Please send them in a container with their name on it. The infants will eat their own provided snack unlike our other classrooms which share snacks.
- Diapers- Please make sure you send enough diapers for your child with their names on the package. The staff will let you know when they are running low. Your child's diaper will be changed approximately every two hours or sooner if needed. So, we go through a lot of diapers at the center.
- FCLC also provides Member Mark unscented baby wipes. If you do not want your child to use these please send in wipes from home.
- Pacifiers and Lovies and items to assist with nap time. If your child uses a pacifier please send an extra one to keep at school. If your child uses anything to assist with nap time you may send that with them. We can send it home daily, or keep it in their cubby here at the center.
- If your child uses a sleep sack to sleep with or a swaddler please send that to school to help them when they rest.
- 2 extra pairs of clothes- We will send home any clothes that need to be washed.
- We can keep Tylenol, Advil, and Diaper Cream at our center. Tylenol and Advil are only used if your infant is teething. Please send it in with the administer of medication form signed with the proper dosage your child may receive. These will be updated monthly.
- We will be sending a Daily Report Form home daily with your child. It will include time they had food, diaper changed, meds given, and any notes for the parents.
- FCLC will provide Bibs and blankets at school for your child. If they accidentally get sent home please send them back.

If you have any questions or concerns please feel free to contact us anytime either through email at office@fclcwil or by phone at 262-632-7311. Thank you for entrusting your baby in our care.
