

# ASPECT ABATEMENT

Aspect Abatement is a certified SDVOSB business that is committed to providing high-quality abatement and remediation services

## **Asbestos Survey, Evaluation, Testing & Consultation**

Asbestos consulting services include building surveys, material sampling and analysis, bid specifications, monitoring for abatement programs, and asbestos management plans, asbestos abatement.

## **Mold Control Services**

Provides solutions to potential mold problems. Many of today's microbiological concerns exist because of changes in construction materials and building designs from the past.

## **Indoor Air Quality Surveys**

On-site inspections, direct reading instrumentation for onsite analysis, and sampling for laboratory analysis. Common services are sick building and tight building syndrome investigations, ventilation and re-entrainment studies, radon testing and odor assessment.

## **Industrial Hygiene**

Expertise to provide a variety of industrial hygiene services including indoor air quality, loss control, worker exposure, OSHA compliance and workplace-related issues.
