

Hi

I'd like to introduce Fozz, a three piece band based around Milton Keynes who write, record, promote and perform their self penned original music, along with an interesting collection of covers and arrangements...some of those great songs you have probably heard, and may love, but might not have listened to for a while!

Fozz are looking for prospective venues such as yours to perform some great covers as well as original songs from their own back catalogue, and from the upcoming studio album 'Semi Detached'.

We'd appreciate it if you could spare some of your time to check us out with a view to securing a performance (support or headline) at your venue.

Full information about the band and its music can be found at https://www.fozz.info/epk

Kind Regards
