FINANCIAL POLICY

We are committed to providing you with the best possible care. If you have vision and/or medical insurance, we wish to help you receive your maximum allowable benefits. To achieve this, we need your understanding of and assistance with our financial and payment policy. **PLEASE PROVDE BOTH YOUR VISION AND MEDICAL INSURANCE CARDS AT EACH VISIT.**

Payment for services is due at the time services are rendered. **All copays, deductibles, and non-covered services must be paid at time of service.** We accept cash, or credit card (Visa, MasterCard and Discover). Insurance plans vary considerably, and we cannot predict or guarantee what part of our services will or will not be covered. It is the responsibility of the patient to provide accurate and timely insurance information **at the time of service.** Inaccurate or untimely information given to the staff that results in denial or noncoverage by your insurance company results in the guarantor being responsible for payment. If your insurance carrier is not one with which we participate, you are responsible for payment in full.
_____**Initial**

While the filing of insurance claims is a courtesy that we extend to our patients, all charges not covered by your insurance company are your responsibility. Please understand that insurance policies are a contract between the policy holder and the insurance company. Our office is not a party of that contract. Every effort will be made to **estimate** your co-payments, deductibles, and covered services. We at no time guarantee what your insurance will or will not pay on each claim. We will cooperate fully with the regulations and requests of your insurance company that may assist in accurately filing your claim. Disputes or denied claims should be directed to your insurance carrier and/or employer. If your insurance company has not made payment within 30 days, we will ask you to contact your insurance company to make sure payment is expected. Ultimately, you are responsible for any unpaid balance. All patient balances that remain delinquent after 90 days, with no response to our requests for payment, may be referred to a collection agency. Should it become necessary to turn your account over to a collection agency, additional fees will be added to your balance.

I have read the above Financial Policy, I understand and agree to it.

Patient or Guardian Signature: _____ **Date:** _____

Medicare: Payment is required at the time of service for all deductibles, copays or non-covered services (i.e. refraction for eyeglass prescriptions). Please be aware that each year, starting January 1, resets your deductible. _____**Initial**
Minors: Minors will not receive treatment without a parent or guardian present. Arrangements must be made with our office PRIOR to exam if another party will be bringing child for their appointment. **The parent or guardian accompanying a minor is responsible for co-insurance or full payment at time of service.** In case of divorce, regardless of decree, the parent bringing the child is responsible for payment. _____ **Initial**
Self-Pay: You acknowledge you will be considered a "self-pay" patient if you do not have insurance or if you have an insurance we do not accept.
_____**Initial**

VISION VS. MEDICAL EXAM

If your routine vision exam reveals a medical condition or disease related to your eye, then your visit is **NOT COVERED** by your vision plan. Unfortunately, the doctor cannot tell if medical eye conditions exist before you are thoroughly examined. Any acute medical condition will become the priority and will be filed with your medical insurance. Medical visits often include specialist copays, and will apply to any medical visits as well as any follow up appointments. Your routine vision exam will be rescheduled after the medical condition has resolved. **Furthermore, your primary vision insurance plan cannot be billed for medical eye conditions (i.e. cataracts, diabetes, glaucoma, and vitreous floaters). Medical conditions will be monitored and billed separately, often at a separate visit from your routine vision exam.** If your medical insurance is not one with which we participate, you will be advised of what the self-pay rate will be for your treatment. _____ **Initial**
