- ✓ Healthcare transparency for Cost, Quality and Convenience (HDHP)
- ✓ Onsite Occupational Clinic Development support (Integration and Narrow Tiering)
- ✓ Health, Wellness & Disease Management (Medical Management and Utilization Controls)
- ✓ DB, DC 401(k) Retirement planning & Modeling (Individualized Benefit Statement)
- ✓ Technology and Innovation: HRMS, Mobile Health Platform, Internet Enrollment, Compliance

Quantum Health Engagement – Medical Management

Using our proven approach, employers can lower health cost trends without adding risk to the business. We bring experience for moving employees into health and wellness accountability. Our approach provides a structured wellness communications plan complete with Mobile Health platform, On-site clinical intervention, structured employee engagement, reference-based pricing and transparency, health promotion and guaranteed ROI. Quantum Health Communications accelerate healthcare savings improving the investment in health, wellness and disease management programs over three years; with noticeable savings realized the first year into the program.

Quantum Success Stories

Wellness Engagement: Quantum has helped more than 30,000 employees increase utilization of the HRA, Biometric Screening and EAP programs leveraging health data to drive employee behavioral goals. One employer “**reduced claims reserves by \$1,000,000**” rendering a medical cost trend reduction of >8% over 3 years.

Financial Wellness: Many employers are concerned about the current economic challenges, lack of employee savings and the communication of plan fees required by the DOL. Employee Retention concerns have gravitated more to Productivity concerns brought on by financial stress. Our turn-key “**Retirement Readiness**” program has increased participation by an average is **66%**. Quantum improves ACP/DCP testing results without enriching plan parameters or discouraging auto-enrollment.

Branded Communications: Quantum can increase employee engagement while eliminating costs within your training budget. Quantum “Customer Service Engagement” programs have helped increase service trends by as much as 2% per quarter. This equates to approximately “**\$1.8 million dollars per year in bottom-line revenue**” according to the COO of one Retail Grocery Client.
