About Us

Following her breast cancer diagnosis in 1994, Selina A. Smith PhD, was approached by Sharlene Weiss, PhD, RN, a nurse psychologist at the Sylvester Comprehensive Cancer Center, with the idea of initiating a breast cancer support group for African American women.

SETAAH(talk) was established by Dr. Smith in 1995. During the first year the support group met in Doris in Dr. Smith's living room. By 1996, the group had outgrown that space; they then gathered at the Sylvester Comprehensive Cancer Center and the American Cancer Society's Hope Lodge. Dr. Smith facilitated the group until September 1998.

Since that time, Mary S. Whitehead, MPH, CHES has served as SETAAH(talk) Facilitator. Ms. Whitehead has expanded the support group to reach women of color throughout Miami-Dade and Broward counties.
