

## SchedSure v1

### A. Licence Code

You will need a licence code to make the software work. You get this from the SchedSure Licence Page – here ....

<https://ccbconsultancy.ltd/schedsure-licence-page>

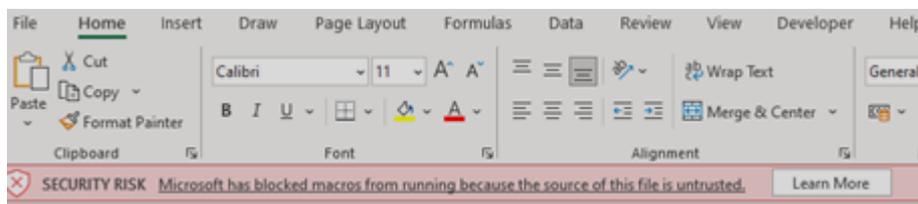

You have 2 choices –

1. a Demo Licence – these are free and sent after you enter your details on the Website.
2. Buy a licence – either 1 year expiry or an unlimited licence.

You will receive an email containing your licence code after you make your choice.

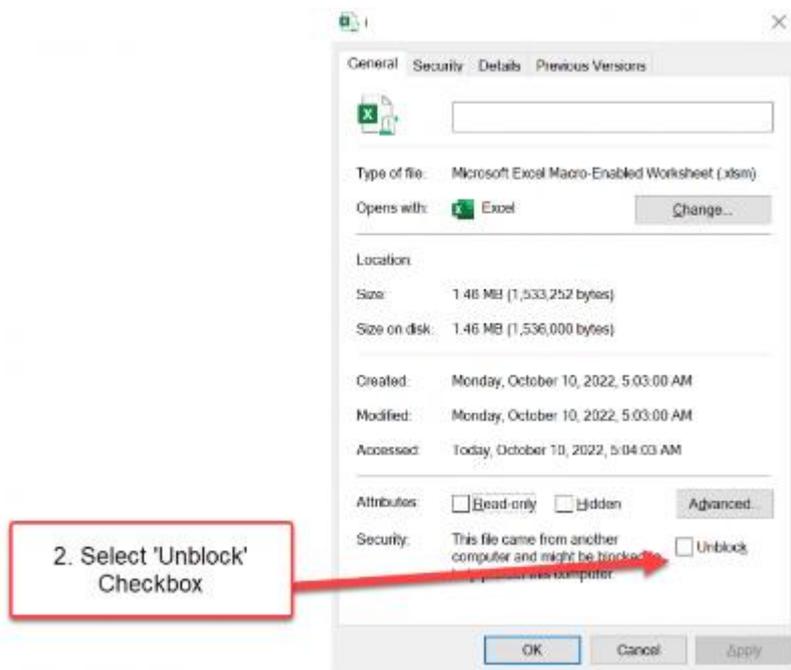

### B. Macros

You will need to enable macros to make the application work. You may see the following when you open your workbook ...

To overcome this, you should unblock the file using the following 2 step process:

1. Right click on the file and select properties
2. Check the following check box on the General tab of the properties dialogue.

You will then be able to enable macros.
