Body contouring services

## FAT FREEZING (2 CUPS)

Controlled coolness is applied to resistant pockets of fat in targeted areas (double chin, upper + lower abdomen, back fat, inner our outer thighs, inner knee, male breastfeeding, back of arms, love handles, below the bum).  
Fat cells are crystallized and destroyed, resulting in centimeter loss.

Lower abdomen (1 cup)	(30 mins)	R900
Rest of the body (2 cups)	(30 mins each)	R1500

Sessions at least 1 month apart. Maximum 2 areas at a time.  
Maximum results after 6 weeks. No down time.

## CELLULITE REDUCTION COMBO

A combination of radiofrequency (RF) treatment and cavitation to help reduce the appearance of cellulite and tighten the skin

RF + cavitation (40 min total - 20 min of each) x1	R500
RF + cavitation (40 min total - 20 min of each) x6	R2400

Minimum of 6 sessions for optimal results. No down time.  
Can be done every 2 -3 days

## RADIO FREQUENCY TREATMENT

High frequency waves are used to reach the deeper layers of the skin. Tissue becomes heated, causing collagen fibers to tighten and resulting in smoother, firmer and tighter skin.

Per treatment per area (body)	(30 mins each)	R650
-------------------------------	----------------	------

Minimum of 6 sessions for optimal results. No down time.  
Can be done every 2 -3 days

## LIPO LASER TREATMENT

A non-invasive laser is used for fat reduction around specific areas of the body.

Per treatment per area	(30 mins each)	R360
------------------------	----------------	------

Minimum of 6 sessions for optimal results. No down time.  
Can be done every 2 -3 days

## FULL HOUSE COMBO

30 min fat freeze, 15min radiofrequency, 15 min cavitation and 10 min laser lipo treatment

Per treatment per area x 1 session	(70 mins each)	R1500
Per treatment per area x 6 sessions	(70 mins each)	R7200

Combination can be repeated once a month due to fat freezing
