

FLAG OFFICERS FOR TRUMP

December, 2020

Open Letter in Post-Election Support of President Trump

We retired Generals and Admirals signed an open letter in support of President Trump's reelection. Now that the election is behind us, we are acutely aware of the problems involved. Therefore, we want to publicly state our support for President Trump's actions to ensure that we have a free, open honest and accurate election result at all levels of government. If that happens, our constitutional election concerns will be satisfied regardless of the outcome. This is not about one person; it is about what is right and fair for our country and the legitimacy of our election process.

Simply stated, this means that we support the legal, ethical and constitutional principle that all legal votes must be counted accurately and all illegal votes must be discarded. Without such honest election principles, our treasured Constitutional Republic is lost forever. Every patriotic American, regardless of political persuasion, should agree with this fundamental principle of our Constitution and Republic- one verified legal vote per one legal citizen.

We urge our fellow American citizens to join us and insist that all legal, ethical, and constitutional discrepancies found during this 2020 election process be identified and corrected so that in the end we have accurate and honest election results.

May God Bless America.

RADM Philip S. Anselmo, USN (Ret)
MG Joseph Arbuckle, USA (Ret)
