AERIE

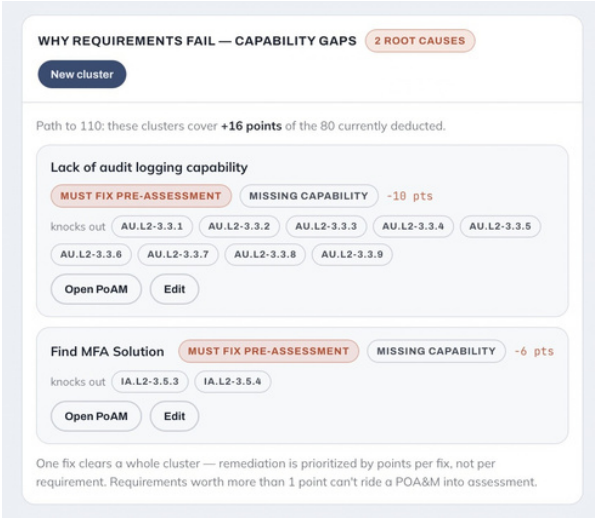

Compliance. Simplified.

Aerie is White Raven Security's purpose-built Governance, Risk, and Compliance (GRC) platform that centralizes CMMC compliance activities, evidence management, remediation tracking, and assessment readiness in a single solution.

Designed for the Defense Industrial Base

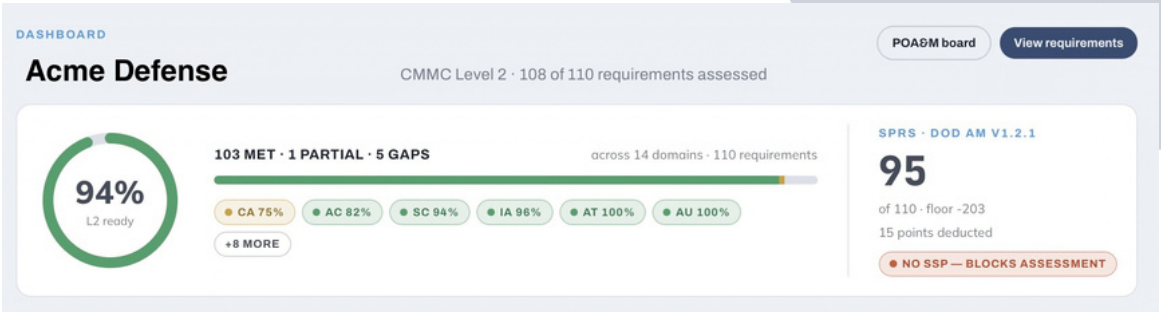

Unlike generic compliance tools, Aerie was developed by cybersecurity professionals actively supporting defense contractors through CMMC readiness and compliance efforts. White Raven's extensive DIB experience shaped the platform's design, enabling organizations to manage compliance activities more efficiently, maintain assessment readiness, and adapt to evolving regulatory requirements with confidence.
